## My Grammatical Inventory

Latin 311
Directions: In the chart below, indicate your knowledge of the grammatical forms and syntactical functions of Latin morphology. It is only natural to forget certain things over time, especially if you have been studying an author who tends not to employ particular forms or functions. Therefore, it is important to be honest with yourself and to give yourself a starting point for the semester. Based on the class results, we will review particular grammatical points over the first few weeks. When you have completed your inventory, click the EMAIL INVENTORY button in the top right to email to me!
